Smart Station for technology

Dear Sir/Madam,

My name is Sahar Zahran, I am pleased to be applying for the front-end developer position at your company. I've included my resume for your consideration.

I have a Bachelor's degree in telecommunication engineering from Al Balqa'a Applied University (Polytechnic) and now I am currently a full stack web developer trainee at Coding Academy by Orange, which gave me proficiency in web technologies such as HTML, CSS, Bootstrap, JavaScript, WordPress, PHP, MySQL, Laravel and React js.

My training at a coding academy by orange includes building ten projects based on the web technologies that I mentioned above, working on these projects taught me skills like time management, team-working, agile project.

My training also includes 100 hours of soft skills such as communication, presentation, team-working skills. In addition to searching skills, social media marketing, and UX & UI design skills. My education and training are a great fit for what you need from a front-end developer.

I am very excited to apply what I have learned and practiced over the past months in your company as a front-end developer.

Looking forward to hearing from you soon.

Sincerely,

Sahar Zahran.
